

AI-Powered Photo Restoration

Restore. Enhance. Relive Your Memories.

FixPix uses advanced AI to unblur, colorize, and upscale your photos in seconds. Secure, private, and fast.

[Upload Image](#)[Explore Demo →](#)

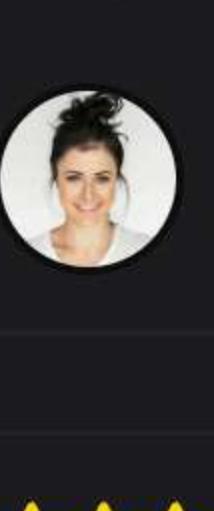

Powerful AI Tools

Our AI engine understands your photos to apply the perfect restoration steps.

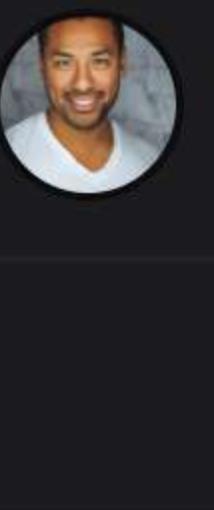

Auto Colorization

Automatically add color to black and white photos using deep learning.

[Learn more](#)

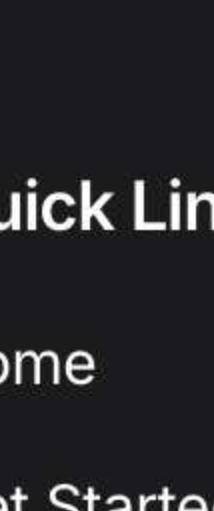

Face Enhancement

Restore facial details with incredible precision using AI.

[Learn more](#)

Scratch Removal

Intelligently fill in scratches, tears, and imperfections.

[Learn more](#)

4K Upscaling

Increase resolution up to 4x without any quality loss.

[Learn more](#)

How It Works

Restore your photos in three simple steps.

Upload Photo

Drag and drop your image. We support JPG, PNG, and HEIC formats.

AI Processing

Our neural engine analyzes and restores your image in roughly 5-10 seconds.

Download Result

Preview the comparison and download your 4K restored image instantly.

Loved by Users

See what our users have to say about FixPix.

5★

"I recovered photos from my grandmother's wedding that we thought were lost forever. The colorization is magic."

Sarah Jenkins

Photographer

5★

"The level of detail FixPix recovers from century-old documents is simply unprecedented. A game changer."

Mark Thompson

Historian

5★

"I use this tool daily to upscale low-res assets from clients. It saves me hours of manual reconstruction time."

Jessica Chen

Designer

5★

"Finally, an AI tool that respects the original grain while removing damage. Highly recommended."

David Wilson

Archivist

FixPix

AI-powered photo restoration tool. Bring your old memories back to life with cutting-edge technology.
